

MTC GAINFUL EMPLOYMENT PROGRAMS

Drafting

OPEID: 03003600 **Credential Level:** O1 (Undergraduate Certificate)

CIP Code: 0648010102

Soc: 17-3011

Students who successfully complete this program may find employment in Architectural and other related engineering firms as a drafter, in various disciplines, such as: architecture, mechanical, civil, structural, plumbing, electrical/electronic, and landscape architecture. Advanced students have extensive use of the techniques and technologies to prepare advanced two-dimensional and three-dimensional computer aided drawings. (CAD)

Students who wish to continue their education in Industrial Management, have the opportunity, have to transfer up to 27 credits toward their Associate in Science (AS) or Associate in Applied Science (AAS) degree in Industrial Management at Broward College. For more information, students should contact the college at 954-201-8611.

Estimated Costs: See links to Tuition/ Fees /Bookstore

Industry Certification and State Credential: See link to School Catalog

Placement: Note: Program placement – as well as program completion - by nature, is done two years in the past. Successful placement is defined as “either employed in field, continuing education or entering the military”. We are awaiting the Florida Education & Training Placement Information Program (FETPIP) Data Report for 2009-2010 to update this site.

Automotive Collision Repair and Finishing

OPEID: 03003600 **Credential Level:** O1 (Undergraduate Certificate)

CIP Code: 0647060300

SOC: 49-3021

This program offers a sequence of courses that provides coherent and rigorous content aligned with challenging academic standards and relevant technical knowledge and skills needed to prepare for further education and careers in the Transportation, Distribution and Logistics career cluster; provides technical skill proficiency, and includes competency-based applied learning that contributes to the academic knowledge, higher-order reasoning and problem-solving skills, work attitudes, general employability skills, technical skills, and occupation-specific skills, and knowledge of all aspects of the Transportation, Distribution and Logistics career cluster.

The content includes but is not limited to basic trade skills; refinishing skills; sheet metal repair skills; frame and uni-body squaring and aligning; use of fillers; paint systems and undercoats; related welding skills; related mechanical skills; trim-hardware maintenance; glass servicing; and other miscellaneous repairs. The course content should also include training in communication, leadership, human relations and employability skills; and safe, efficient work practices.

This program focuses on broad, transferable skills and stresses understanding and demonstration of the following elements of the Automotive industry; planning, management, finance, technical and product skills, underlying principles of technology, labor issues, community issues, and health, safety and environmental issues.

Teacher Assisting

OPEID: 03003600 **Credential Level:** O1 (Undergraduate Certificate)

CIP Code: 0713129902

SOC: 25-9041

The purpose of this program is to prepare students for employment as substitute teachers and teacher assistants (SOC 25-9041). This program offers a sequence of courses that provides coherent and rigorous content aligned with challenging academic standards and relevant technical knowledge and skills needed to prepare for further education and careers in the Education and Training career cluster; provides technical skill proficiency, and includes competency-based applied learning that contributes to the academic knowledge, higher-order reasoning and problem-solving skills, work attitudes, general employability skills, technical skills, and occupation-specific skills, and knowledge of all aspects of the Education and Training career cluster.

This is a job-preparatory career and technical program. To be enrolled a student's status in school and schedule must allow sufficient time for the student to be able to complete the program. The Teacher Assisting program is designed to support teaching activities for students in classroom settings. It is not a program to provide clerical support to office or administrative personnel.

The content includes but is not limited to competencies and skills needed to become a paraprofessional in the field of education. This includes an understanding of education in the United States, the ability to work effectively with all students, educational technology, classroom management, student assessment, communication skills, and other skills needed to support the learning activities of students.

Nursing Assistant

OPEID: 03003600 **Credential Level:** O1 (Undergraduate Certificate)

CIP Code: 0317060200

SOC: 31-1012

This course is designed to prepare students for employment as nursing assistants SOC- 31-1012(nursing aides, orderlies, and attendants) in nursing homes, hospitals, or other health care facilities. This program offers a sequence of courses that provides coherent and rigorous content aligned with challenging academic standards and relevant technical knowledge and skills needed to prepare for further education and careers in the Health Science career cluster; provides technical skill proficiency, and includes competency-based applied learning that contributes to the academic knowledge, higher-order reasoning and problem-solving skills, work attitudes, general employability skills, technical skills, and occupation-specific skills, and knowledge of all aspects of the Health Science career cluster.

The content includes, but is not limited to, interpersonal skills, medical terminology, legal and ethical responsibilities, safe and efficient work, gerontology, nutrition, pet-facilitated therapy, health and safety including Cardio-pulmonary Resuscitation (CPR) – heart saver level, and employability skills.

Successful completion of this program from an approved school prepares the student for certification for employment as a Nursing Assistant in a nursing home, in accordance with Chapter 464.203, Florida Statutes. To be approved, the course must be taught by a registered nurse. Those students who satisfactorily complete an approved course are eligible to apply to take the national nursing assistant examination being utilized in Florida, in accordance with Chapter 464.203, F.S. Nursing assistants do not need to be certified except to work in nursing homes unless it is a condition for employment in other institutions. This program includes both Acute and Long Term Care.

Optometric Assistant

OPEID: 03003600 **Credential Level:** O1 (Undergraduate Certificate)

CIP Code: 0317070501

SOC: 31-3099

The purpose of this program is to prepare students for employment as optometric assistants or SOC 31-9099 Healthcare Support Worker. This program offers a sequence of courses that provides coherent and rigorous content aligned with challenging academic standards and relevant technical knowledge and skills needed to prepare for further education and careers in the Health Science career cluster; provides technical skill proficiency, and includes competency-based applied learning that contributes to the academic knowledge, higher-order reasoning and problem-solving skills, work attitudes, general employability skills, technical skills, and occupation-specific skills, and knowledge of all aspects of the Health Science career cluster.

The content includes but is not limited to basic instruction in anatomy and physiology, CPR, Heartsaver, office practices and dispensing of visual devices. Because optometrists now deal with certain drugs, students need knowledge of diagnostic and therapeutic drugs under supervision. The Health Science Core must be taken by all students (secondary, postsecondary adult and postsecondary vocational) planning to complete any Health Occupations program. Once successfully completed, the core does not need to be repeated at any instructional level.

Fire Fighter

OPEID: 03003600 **Credential Level:** O1 (Undergraduate Certificate)

CIP Code: 0743.020300

SOC: 33-2011 and 53-3099

This program offers a sequence of courses that provides coherent and rigorous content aligned with challenging academic standards and relevant technical knowledge and skills needed to prepare for further education and careers in the Law, Public Safety & Security career cluster; provides technical skill proficiency, and includes competency-based applied learning that contributes to the academic knowledge, higher-order reasoning and problem-solving skills, work attitudes, general employability skills, technical skills, and occupation-specific skills, and knowledge of all aspects of the Law, Public Safety & Security career cluster. This program offers a broad foundation of knowledge and skills to prepare students for employment in network support services positions.

Additionally, this is an instructional program that prepares individuals to provide initial care to sick or injured persons. The First Responder is the first to arrive at the scene of an illness or injury but does not have the primary responsibility for treating and transporting the injured person(s). First Responders may include law enforcement, correctional officers, correctional probation officers, life guards, fire services or basic life support non-licensed personnel who act as part of an organized emergency medical services team. This program must be approved by the Department of Education (DOE) utilizing standards jointly developed by the Florida Department of Law Enforcement (FDLE), Department of Financial Services (DFS) and the Emergency Medical Services (EMS) Bureau of the Department of Health (DOH) as specified in Section 401.435, F.S.

The program must be approved by the Division of State Fire Marshal, Bureau of Fire Standards and Training. Outcomes and Student Performance Standards in this program have been adapted from the National Fire Protection Association Standard for Fire Fighter Professional Qualifications (NFPA 1001) and the Standard for Fire Apparatus Driver/Operator Professional Qualifications (NFPA 1002), as regulated by the Florida Bureau of Fire Standards and Training through Chapter 633, F.S. and the State Fire Marshal Rules, Chapter 69A-37, Florida Administrative Code (F.A.C.).

The fire fighter program content includes, but is not limited to, orientation to the fire service, fire alarms and communication, vehicles, apparatus and equipment, fire behavior, portable extinguishers, fire streams, fundamentals of extinguishment, ladders, hoses, tools and equipment, forcible entry, salvage, overhaul, ventilation, rescue, protective breathing equipment, first responder emergency medical techniques, water supplies, principles of in-service inspections, safety, controlled burning, and employability skills.

The fire apparatus operator program content additionally includes, but is not limited to, an understanding of hydraulics and fluid dynamics, principles of fire department water supply, nomenclature and operations of fire apparatus, appliances, municipal and rural water systems, maintenance, and safety in operational procedures.

Reinforcement of basic skills in English, mathematics, and science appropriate for the job preparatory programs is provided through career and technical classroom instruction and applied laboratory

procedures or practice. This program focuses on broad, transferable skills and stresses understanding and demonstration of the following elements of the public service industry; planning, management, finance, technical and production skills, underlying principles of technology, labor issues, community issues and health, safety and environmental issues.
