Digital Photography Technology

PROGRAM DESCRIPTION

Digital Photography Technology combines the strengths of today's digital SLR cameras for capturing still images as well as digital video. Software applications taught in this 10 month program are **Adobe Photoshop, Lightroom, and Premier**. Employment opportunities after completion of this program range from working as still photographers to working as video editors. Subjects also included in this program are the creation of High Dynamic Range (HDR) images, the understanding of intellectual property rights, workflow, and creative direction.

Through the use of books, videos and demonstrations about commercial photography, students develop proficiency in the use of:

- Cameras of all formats
- Exposure controls
- Compositional elements of design
- Lighting Techniques
- Film Processing
- Media presentations
- Premier
- High Dynamic Range (HDR)

COURSES

■ Photographic Process Workers-1	250 Hours
■ Photographic Specialist	150 Hours
■ Photography Technician	300 Hours
■ Studio Photographer	300 Hours
■ Digital Photographer	300 Hours
■ Commercial Photographer	450 Hours

PROGRAM CONTENT

Digital Photography Technology students also learn to produce:

- Portraits
- Commercial photographs
- Industrial photographs

Additional activities in the Digital Photography Technology program include:

- Digital imaging
