Java Development & Programming

McFATTER

Where Your Next Chapter Begins...

Program Description

In today's world, technology drives business, and people who build technology are leading the race to the future. The Java Development & Programming program is the stepping stone to your future.

Java is a global standard for mobile apps, games, web content, and business software. Java programmers work in many industries creating, implementing, testing, and maintaining software applications. Learning how to program not only lets you master technology, but also enhances your critical thinking and problem solving skills. This program offers a sequence of courses that provides coherent and rigorous content needed to prepare for a bright future in the Information Technology sector armed with higher-order reasoning, technical, and occupation-specific skills.

This program is offered primarily online, so students must have access to a computer with an Intel Pentium Core i3 processor or higher, 8GB of memory, and 500GB of hard drive free space. The coursework and applications used are compatible with Windows 7 or higher and/or Mac OS X 10.6 or higher.

Admission Requirements

Schedule the Tests of Adult Basic Education (TABE) ($15) or provide official documentation for a TABE exemption to your program counselor.

Schedule an appointment with your program counselor for TABE results and/or a program specific orientation.

Register for classes during open enrollment. Please be advised that registration runs on a first come, first served basis.

For additional information, please contact the Office of Admissions at (754) 321-5700.

Program Hours and Schedule

1200 hours I 12 Months I Distance

Monday – Friday, Online

If necessary, Face to Face class time and location will be confirmed by instructor.

Classes begin three times per year in August, January and June.
