Marine Service Technologies

Where Your Next Chapter Begins...

Program Description

McFatter's Marine Service Technologies program will prepare you for a career in the pleasure-boat service & repair industry. This one-year program is divided into 6 individual courses. Content includes 2 and 4 stroke engines, inboard gas engines, advanced fuel injection, electrical systems, and diagnostics of computer controlled systems used on modern outboard motors from major manufacturers. In addition, the program features electrical fundamentals and pleasure boat instrumentation as it pertains to NMEA and ABYC. The program is taught by a factory certified instructor.

The Marine Service Technology program consists of theory & lectures, demonstrations, and class discussions. Students are expected to learn mechanical theories, as well as perform hands-on activities, accomplish diagnostic scenarios and overhaul specific components. Students work individually and in groups or teams, which is common practice in the Marine industry.

The program is delivered in the Industrial Building, Students will receive instruction in the classroom and will practice hands-on skills in the shop/lab area. The classroom and shop/lab are equipped with the the necessary tools and equipment to deliver the program curriculum.

Admission Requirements

Schedule the Tests of Adult Basic Education (TABE) (\$15) or provide official documentation for a TABE exemption to your program counselor.

Schedule an appointment with your program counselor for TABE results and/or a program specific orientation.

Register for classes during open enrollment. Please be advised that registration runs on a first come, first served basis.

For additional information, please contact the Office of Admissions at (754) 321-5700.
