Automotive Service Technology

Where Your Next Chapter Begins...

Program Description

Do you have an interest in cars and repairing and maintaining your own vehicle? Are you good with your hands, as well as successful at reading and following instructions? Then consider becoming trained in the high demand automotive maintenance and repair industry, which offers a promising future. The Automotive Service Technology program at McFatter Technical College offers its students the training necessary to obtain a career in the automotive service and repair arena. Students will develop the foundation required to maintain, repair, diagnose, or replace automotive systems and their components. Through theory, lectures, demonstrations, hands-on activities, and on-line components, students are given all the "tools" needed for success.

The program is delivered in the Industrial Building. Students will receive instruction in the classroom and will practice hands-on skills in the shop/lab area. The classroom and shop/lab are equipped with the latest tools and equipment to deliver the State/NATEF approved curriculum. Graduates of this program are expected to obtain employment in the automotive service industry or continue to a higher level of education.

Admission Requirements

Schedule the Tests of Adult Basic Education (TABE) (\$15) or provide official documentation for a TABE exemption to your program counselor.

Schedule an appointment with your program counselor for TABE results and/or a program specific orientation.

Register for classes during open enrollment. Please be advised that registration runs on a first come, first served basis.

For additional information, please contact the Office of Admissions at (754) 321-5700.
