Digital Photography Technology

Where Your Next Chapter Begins...

Program Description

Digital Photography Technology combines the strengths of today's digital SLR cameras for capturing still images as well as digital video. Software applications taught in this 10 month program are Adobe Photoshop, Lightroom, Premiere, and iMovie. Employment opportunities after completion of this program range from working as still photographers to working as video editors. Subjects also included in this program are the creation of High Dynamic Range (HDR) images, the understanding of intellectual property rights, workflow, and creative direction. Through the use of books, videos and demonstrations about digital photography, students develop proficiency in the use of:

- Exposure controls
- Compositional elements of design
- Lighting Techniques
- Media Presentations
- iMovie
- High Dynamic Range (HDR) images

Additional activities in the Digital Photography program include:

- Digital imaging
- Scanning film and prints
- Image manipulation using Adobe Photoshop® software.
- Digital Video

The Digital Photography Technology classroom is located in the Communications building and includes multiple studios and Mac computers.
