# Electricity

## Where Your Next Chapter Begins...

## Program Description

McFatter's Electricity program focuses on training in electricity for residential, commercial, and industrial systems. The students will be instructed on conduit bending techniques, blueprint reading, fire alarm installation, journeyman preparation, and interpreting national and local electrical codes. Also, the students will master the understanding of all aspects of the electricity industry's planning, management, finance, technical and productions skills, with underlying principles of technology, labor issues, community issues and health, safety and environmental issues.

This program consists of:

- Introduction to Solar Photovoltaic
- National and Local Codes
- A/C and D/C Circuits
- Specialty tools
- Trouble shooting
- Installation of Electrical systems
- Electrical Safety
- Grounding
- Electrical Equipment
- Blueprint Reading
- Wiring Methods

The Electricity program is delivered in the Industrial Building. Students will receive instruction in the classroom and will practice hands-on skills in the shop/lab area. The classroom and shop/lab are equipped with the latest tools and equipment to deliver the program curriculum.
